

Steel UID Labels

Etched and filled

- Satisfy your UID labeling requirements and achieve MIL-STD-130 compliance with confidence.
- Enhance your product appearance with attractive and functional labels guaranteed to meet government specifications and last for decades.
- Complete your required WAWF registration process with ease and confidence through the optional Express registration process.

FEATURES

- Every UID label order is verified and certified to be in compliance with government specifications.
- A detailed label verification analysis report is provided with every shipment, certifying conformance of your labels.
- Labels feature exceptional durability and effective resistance to the effects of heat, cold, abrasion, chemicals, and prolonged weather exposure.

Conforms to Industry Standards:

MIL-STD-130N

STANAG 2290

MIL-STD-13231

MIL-PRF-61002B

ISO 15416

RoHS, WEEE, REACH

as well as other applicable standards.

BARCODES

- Include DataMatrix or combination of DataMatrix and linear barcodes to satisfy your requirements.
- Engineered to meet your needs regarding required data format and construct.
- Precise high resolution imagery provides optimum barcode readability.
- Electronic transfer of your data file is available to simplify your procurement process.
- Our rigorous Quality Management System (ISO 9001:2008) and robust data management services ensure complete data integrity.

MATERIALS

- Chemically deep etched .005" then filled with baked enamel paint for enhanced readability and superior durability.
- Alloy 304 or 316 with 2B finish.
- Available in thicknesses of .018" .024" and .036".
- Produced with one or more holes for mechanical attachment.
